DISTRESS CALLS ANSWERED DEPENDS ON DETAILS OF BILL

Men Had No Way of Leaving Vessel.

Atlantic Coast Lined With Derelict Vessels

[Special to The Times-Dispatch.]
New York, January 18.—Forty
derelict schooners are reported between Portland, Me., and Norfolk,
Va. All of these vesses have been
abandoned as a result of the terrific
northwest gale which has swept
the Atlantic Const for the past two
days. No lives have been lost, so
far as is known, but in many cases
the rescues were accomplished under
great difficulties. Many of the
schooners are close to shore, but
several of the vessels are reported
to have been blown out to sea, and
are now a serious menace to navigation.

Four Atlantic liners—La Provence,

gation.

Four Atientic liners—La Provence, the St. Louis, Caronia and Minnewaska—arrived here to-day from twenty-four to thirty-six hours late as a result of the gale. All of the liners were coated in ice. The St. Louis reported receiving a wireless message from the Royal Mail liner Chigaecte, sister ship to the Cobequid, which latter foundered on Trinity Ledges last week, saying that the crew of the British schooner Ladysmith, had been rescued. The Ladysmith was abandoned 900 miles east of Sandy Hook.

ENGINE TURNS OVER.

Fireman Crush to Death and Engi-

neer I stally injured.
Charlotte, N. C., January 18.—Caught nder his engine, which was overturned by a spreading rail at Davidson toht at 8:30 o'clock, Fireman Avery Wilson, of the Taylorsville branch of the Southern Eallway, was crushed to death, while Engineer J. E. Curlee was fatally scalded by escaping steam. Both were residents of Charlotte.

gage and express car was hardly felt in the two day coaches making up the remainder of the train. This is accounted for by the fact that the wreck occurred within 300 yards of the David-son station, and the train, not making

FROM SINKING SHIP PAY FOR MILITIA

plication Is Unwarranted by Facts.

Lifeboats Crushed by Waves, and Matter Then Will Be Taken Up With President and Conclusion Announced.

Washington, January 18.—Secretary Garrison to-night issued a statement which military officers consider makes it plain that the War Department is not committed to the principle of paying the militia. The secretary reliterated his statement made to militia officers who were here last week, that if details of a bill could be agreed on, he would take the question up with President Wilson, but he emphasized the fact that he has reached no conclusion.

"I have observed in all the statements with respect to the proposed militia pay bill which I have seen, an implication which is unwarranted by the facts," said the secretary. "I would like the exact situation to be known so those who discuss it may do so advisedly. The fact is that I have made it perfectly clear to every one concerned that the administration is not committed to the principle of such pay. I said that if details of a bill could be agreed upon containing all those advantages to the Federal government which advocates of the principle argued would demonstrate the desirability and advisability of adopting the principle of militia pay, I then would take the matter up with the President, and announce a conclusion thereon.

"For the purpose of having the sub-

Louis reported receiving a wireless message from the Royal Mail liner Chignecto, sister ship to the Cobequid, which latter foundered on Trinity Ledges last week, saying that the crew of the British schooner Ladysmith, had been rescued. The Ladysmith was abandoned 900 miles east of Sandy Hook.

Baltimore, Md., January 18.—Rescued from their ice-coated sinking ship after they had given up all hope, the thirten members of the crew of the five masted schooner Fuller Palmer this morning arrived in Baltimore aboard the Donaldson Line steamer Marina. The rescue was made by the Marina early on Thursday morning, 156 miles

occurred within 300 yards of the Davidson station, and the train, not making over twenty-five miles an hour, was slowing down The engine left the rails on a gradeless curve in a cut within twenty yards of the town cemetery.

Negro Chauffeur Arrested for Using Car Without Permission of Owner.

Henry Green, colored, employed as a chauffeur by Mrs. C. U. Williams, of Strawberry Hill, was arrested before daybreak yesterday by Polleemen Leiss, Dunn and Galbraith on the charge of using her automobile without permission.

sion.

Green is said to have taken the car on Saturday night, and with several women went for a joy-ride through Jackson Ward. According to the police, he was drunk, and was making the car perform all sorts of "stunts" when he suddenly lost control, and it dashed into a pole at Brook Avenue and Baker Street. Although it was not badly damaged, the accident drew a crowd, and in a few minutes the policemen arrived and arrested Green.

Unsettled Weather Followed by Fair

Washington, January 18.—Somewhat unsettled weather will prevail the first of the week over much of the country, but the last of the week' will be generally fair, the Weather Bureau announced to-day.

"There are indications," the official bulletin said, "that rains and snows west of the Rocky Mountains will be terminated after Monday. In the Plains States and the Northwest snows or rains, with continued high temperatures, are probable by Tuesday or Wednesday, followed by fair and colder weather.

"East of the Missouri River the weather will be unsettled, with snows or rains during much of the week, except that it will be generally fair Monday and Tuesday in the Great Central Valleys, and on Tuesday and Wednesday in the Lake region and the Atlantic States.

"In the South the weather will be unsettled Monday and Tuesday, with local rains, followed by generally fair weather the remainder of the week.

"It will be warmer Monday over

fair weather the remainder of the week.

"It will be warmer Monday over the central portion of the country, and on Tuesday in the East and South. No unusually cold weather is indicated at present for any portion of the country."

MINIATURE ALMANAC.

January 19, 1914. HIGH TIDE:

WHY THE QUALITY OF CERTAIN-TEED ROOPING IS HIGHER AL-IS LOW.

By George M. Brown, President General Roofing Manufacturing Company

There is one great big point about Certain-teed Roofing that I want to impress as forcibly as I can upon your mind.

It costs you less and gives you more. When I say it costs you less, I do not mean that you can't buy roofing at a lower price. You can—much lower in some cases. But you cannot figure cost merely by the price you pay. Yo got to consider the years of service.

A Certain-teed Roof will last 15 years or more. Even if you pay a few dollars less for some other roofing to cover the same area and it dries up an leaks and has to be done over in a year or two or possibly five—it has cost you many times the cost of Certain-teed per

or two or possibly five—it has cost your many times the cost of Certain-teed per year.

Certain-teed Roofing is the highest quality possible for skilled men and perfect machines to make of the best raw products obtainable. There is no step in its manufacture in which we do not bear constantly in mind that we are making a roofing which will surely make good under our 15-year guarantee. It must be the finest protection for your building and its contents; it must be so durable that it will effectively resist heat and cold, rain and snow and all other weather conditions.

It must be all of this to justify us in guaranteeing it for fifteen years. It will iast longer than that, and it will save you money in every year of its service on your buildings. Certain-teed would have to be higher in cost were it not for our manufacturing facilities, our method of distribution, and our enormous volume.

You can buy Certain-teed Roofing of

You can buy Certain-teed Roofing of

You can buy Certain-teed Roofing of your local dealer, whom you know. We market it only through the jobber and retailer—not through mail-order houses. Everybody likes to buy things face to face with the seller.

When you buy of your local dealer there is a personal element in the transaction. There is a personal satisfaction. You know the dealer and he knows you. His word is good with you as your word is with him. You know him well enough to know that when he says a thing is right he will make good.

Your dealer has cur guarantee back of him. More than that, the Certain-teed label is on the roofing you buy. It is a brief, concise, exact guaranty. It is a bond that we execute in your favor.

the service you pay for Certain-teed

Roofing

There are many roofing tests-pulling, twisting, tearing, biting-for toughness, tensile strength, pliability, etc.—but they are all false tests. A roof does not have to undergo these things.

Roofs do not wear out-they dry out. Certain-teed is made of the slowest drying materials—a soft center mineral asphalt base, protected by a harder asphalt surface. It's not tough to tear-but it will be on the job, on the roof, long after other roofs have shriveled up and blown away.

The man does not live who can tell in advance, by looking at, or by any other test, how long a roof will last. But this label tells you how long Certainteed will last-and the three biggest mills in the roofing industry are responsible for that guarantee.

You can buy roofings priced as low as one-third less than Certain-teed. Your saving, however, is but a few dollars at most - and it's poor economy. The price of Certain-teed is always reasonable and it's least expensive in the end.

A Certain-teed Construction

A Certain-teed Construction Roof
for buildings of the most permanent type appeals to architects, engineers and builders as well as to owners.

A Certain-teed Construction Roof is a built-up roof and is the modern scientific process of covering—whether a gable roof or a flat roof with poor drainage.

A Certain-teed Construction Roof does away with the smoky tarpot and as no gravel is used, does not collect dust and the roof is washed clean after every rain. It is a sanitary roof.

Couls more—but worth more. Ap-Costs more—but worth more. Applied only by responsible roofers.
